

**Wurtland Middle School  
Council Policy  
Appraisal of State Standards, Technology  
Utilization and Programs  
KRS 160.345(2)(i)9**

Policy Number	
11	
Type:	Required

**Alignment with State Standards**

The Comprehensive Planning process recommended by the Kentucky Department of Education entails:

- Sustained analysis of the extent to which our students are meeting state standards.
- Systematic work to move our students closer to those standards within the timetable set by the Kentucky Board of Education for reaching proficiency.
- Ongoing monitoring and evaluation of the implementation and impact of our plans.

We will implement that process, including review of our alignment with state standards through our needs assessment and our implementation and impact checks.

**Program Appraisal**

The Consolidated Planning process recommended by the Kentucky Department of Education entails:

- Sustained analysis of whether each of our programs is contributing adequately to helping all our students meet state standards.
- Systematic work to improve those programs so that we do meet state standards for all students within the timetable set by the Kentucky Board of Education.
- Ongoing monitoring and evaluation of the implementation and impact of our programs.

We will implement that process, including appraisal of the effectiveness of all our programs, through our needs assessment and our implementation and impact checks.

**Technology Utilization Plan**

The school shall utilize technology in a manner consistent with local school board policy, state laws and regulations. School regulations included the opportunity for daily use of computers for all students. An ethical agreement for Internet use will be signed by all students, parents, and teachers.
